Subject: DNR Aquatic Leases for 51-046342, 51-046322, and 51-045730

Morning Lindie-

-42 is still an active stormwater outfall for us at the end of Marlow Avenue and E. 13th Street in Manette.
-22 is still an active stormwater outfall for us at the north end of High Avenue, and is our overflow site (OF-11).
-30 is still an active sanitary sewer main from our pump station CW-1 (19th and Olympic) to CW-4 (Ohio Avenue).

So we need all three. And if you would please update your contact information for the contact on these agreements to:

Director of Public Works and Utilities
100 Oyster Bay Avenue
Bremerton, WA 98312
360.473.5920
Bremerton1@ci.bremerton.wa.us

Thanks, g.
